THE PROBLEM

OPERATIONAL INEFFICIENCY

Manual, paper based signing in of guests and prospective employees to your office proves to be cumbersome and time consuming.

POOR VISITOR EXPERIENCE

Due to paper based manual check-ins, visitors are often subjected to long waits. The experience is often time consuming and unpleasant.

HIGH ADMINISTRATIVE COSTS

Single office or multi-location organizations require a complex and costly administrative support for visitor logging, information processing, and reporting and tracking.

THE SOLUTION

RAPID, PAPERLESS & SECURE

The application allows an organization to go paperless and reduces wait time for visitors by checking them in with high security within seconds.

EASY TO USE

The application allows host to send calendar invite to the visitor. Host can send reminders few hours before the meeting with a map and directions in email. Visitor's details automatically shows up in the application.

REAL TIME ANALYTICS

The application allows the host to understand real time visit patterns on their premises through a detailed dashboard.

INVENT YOUR DIGITAL FUTURE

We provide digital consulting services to help our customers understand and respond to the digital revolution. We do this by being your strategic thought partner, develop innovative solutions together and bring our deep expertise in technology, design thinking and agile implementation.

START NOW

- Strategic thought partnership
- Idea to Impact in 90 days
- Braintrust & Innovation workshops
- Run on new paradigm shifting technologies
- Accelerate time to market, stay competitive

OUR APPROACH

SURE STARTSM

From brainstorming your initial vision, through best-practice design & build, to production enhancements, you can be assured of our expert guidance throughout.

PARTNER ADVANTAGESM

We bring you world-class design-thinkers and engineers to be your thought partners and intelligent solutions providers.

NOW AND NEXTSM

We engineer solutions on new paradigm shifting digital technologies, be it AI, big data analytics or Internet of Things but we start with wherever you are today.

THE BENEFIT

COST SAVINGS

Eliminate capital expenditure, simply pay for what you use. Reduce IT complexities and resource investment; control full value of your investment to achieve higher ROI.

CONTINUOUS INNOVATION

We run innovation workshops, where we push the boundaries of invention to mobilize your ideas. Store, share, collaborate and discover more in global communities.

EXPERTISE

Our expertise is built upon decades of experience and continually challenging the status quo. Partnered with leading tech providers like Google and Amazon and have over 750 customers across the globe.
